

## Unit 1.3 Graded Assignment: Version Control

### Instructions:

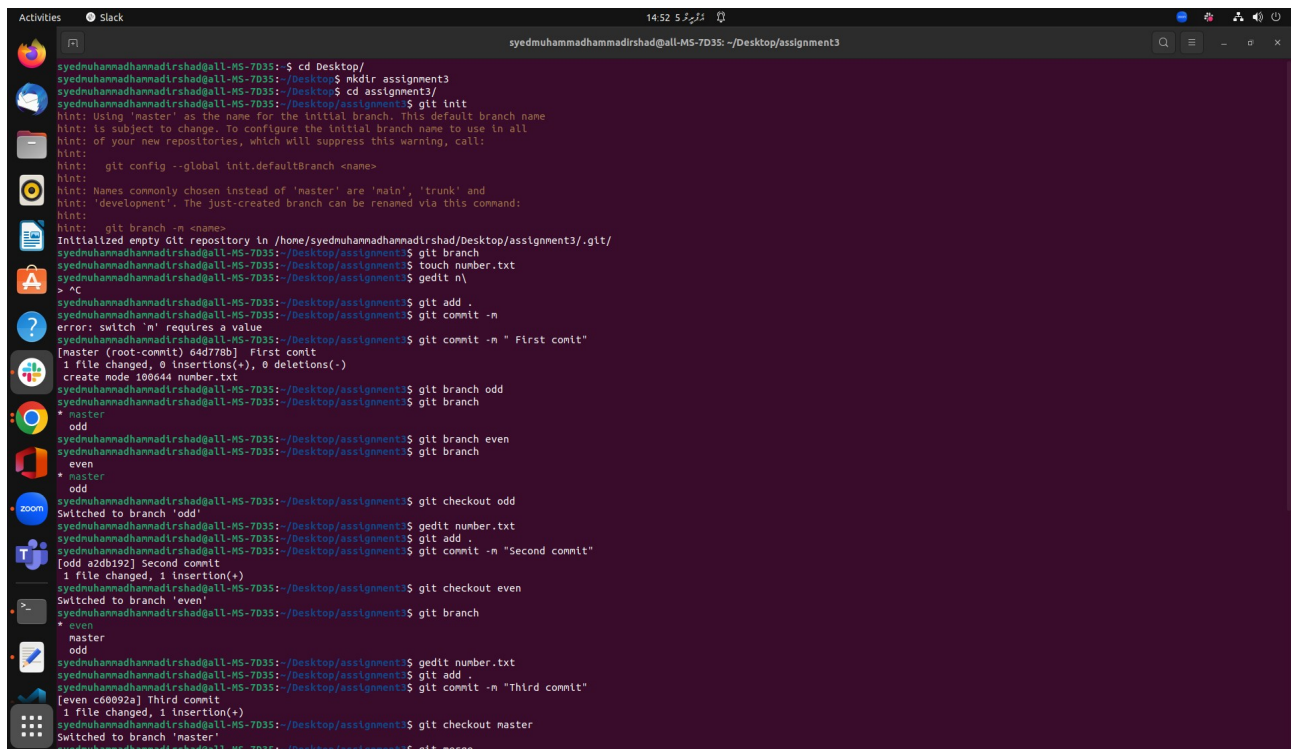

1. Create a new git repository in a local directory.
2. Create an empty file “numbers.txt” and commit it to the current (“main” or “master”) branch.
3. Create two new branches: “odd” and “even”.
4. Switch to the “odd” branch.
5. Edit the “numbers.txt” file by adding some odd numbers, then commit the change.
6. Switch to the “even” branch.
7. Edit the “numbers.txt” file by adding some even numbers, then commit the change.
8. Switch to the main branch.
9. Merge the “odd” branch to the current one.
10. Try to merge the “even” branch too – it should cause a conflict.
11. Resolve the conflict by combining all the numbers and commit the merge.

List the commits using git log -p command and save the output in a file.

### Submitted By:

1. Ali Nasir (2303.KHI.DEG.012)
2. Syed Muhammad Hammad Irshad (2303.KHI.DEG.032)

### Solution:

```
syedmuhammadhammadirshad@all-MS-7035: ~/Desktop/assignment3
syedmuhammadhammadirshad@all-MS-7035: ~/Desktop$ cd Desktop/
syedmuhammadhammadirshad@all-MS-7035: ~/Desktop$ mkdir assignment3
syedmuhammadhammadirshad@all-MS-7035: ~/Desktop$ cd assignment3/
syedmuhammadhammadirshad@all-MS-7035: ~/Desktop/assignment3$ git init
hint: using 'master' as the name for the initial branch. This default branch name
hint: is subject to change. To configure the initial branch name to use in all
hint: of your new repositories, which will suppress this warning, call:
hint:
hint:     git config --global init.defaultBranch <name>
hint:
hint: Names commonly chosen instead of 'master' are 'main', 'trunk' and
hint: 'development'. The just-created branch can be renamed via this command:
hint:
hint:     git branch -m <name>
